

Municipal - Florida

Last Updated Friday, 22 May 2009

The Municipal division of Hudson Pump was formed on March 1, 1999 with the merger of Flanagan-Metcalf into Hudson Pump. Several key members of Blankenship & Associates have also joined this group. The combined employees of these two respected Florida distributors have brought a wealth of knowledge and experience to Hudson Pump. As a result, Hudson Pump now has the best and most complete line of pumps, package stations, and related products serving the Florida municipal market.

Municipal

Water & Wastewater Equipment:
